There has been some correspondence between this office on the one hand, and the Press and Comptroller's offices on the other, on the subject of reconciling the figures relating to the Printing charges in Connection with the Census of 1891, as given in the Census Report and as furnished by the Press. The result, I am sorry to say, is still inconclusive. Some further

As reported in my letter No. 666 dated 27th December 1900 submitting copy of my Official Memorandum No. 593 dated 21st December 1900, all printing work connected with the recent Census has been done at the Government Press satisfactorily. There has thus arisen no occasion to resort to private presses. Dear Mr Krishna murthi

With reference to your conference this morning on the subject of the Census work, I beg to inform you that the following works noted down by me from Mr Umamaheswara Rao's instructions will be done as follows:-

Local Table A & its enclosure
Table B, C[I] C[II] & D } about 350 pp
will be completed and delivered by 13th Dec
40 pp Index of Caste will be delivered by 13th Dec
50 pp List of Europeans & Eurasians by 13th Dec
making a total of about 450 pp -

10/6 All the Imperial Tables amount to 2400 pp, of which 1350 copies have been already given - 1033 copies more of this 2400 pp have yet to be delivered of this quantity; 1033 copies of 1600 pp are ready, but not bound; the balance 1033 copies of 800 pp remain to be finally printed - out of this 800 pp final print order has not been received for 350 pp - Table 8*. This morning, Mr. Ananda Rao instructed me to print off finally all Imperial Tables. I therefore have to print 1033 × 800 × 2 = 1652000 impressions; each machine will give 5000 impressions per day, only 4 machines are fit for this work, therefore we get 20000

10/C

impression a day, and 100000 impressions a night = 300000 in the 24 hours it is therefore a mere sum in Arithmetic that it will take 55 days to strike off the required number of impressions. this however may possibly be reduced to 30 days by employing 4 hand presses also

The Report cannot be ready for the Press before the 25th or 28th Dec, if it extends to 800 pp, it can be finished in the Press in about 15 days, the Census Department in examining proofs. That is, by the 13th or 15th January the Report should be finished. then 10 35 Copies have to be struck off, which as shewn above, will take from 30 to 40 days. I now come

10
As the question of binding 1035 copies
I have no information as to the number
of volumes, & cannot therefore estimate
accurately the time required, but one
volume takes 2 days, if only 2 men are employed
on it, so, taking the capacity of the Binding
Dept. on an average, 20 books a day
may be bound, that is about the number
to bind 1000 books.
As soon as bind order is given, I propose
to give advance copies. New machinery
would not at present help much, as
it would take at least a month to
procure & set up, & by that time I hope
all the printing will be done. In order
to carry on the work as I now propose, it
will be necessary to keep every one at work
night & day including the permanent fixed
pay establishment & to employ supernumeraries
which will entail overtime payments, as
men cannot be expected to work out of time

amount required, if there is no objection and may be debited to the Provisional Grant of Rs 25,000 already sanctioned on account of "Water, Printing & other Prep charges".

This overtime will be the only real extra
expense which I would earnestly ask
you to sanction, for unless men are
encouraged in some way it is hopeless
to expect good work. I may also have
to give higher rates to men temporarily
